Jean Carlo is a caring 14-year-old who suffers from a severe neurological disorder. He was thrilled when he heard the news that his wish to have a bedroom makeover would come true. His wish granters worked tirelessly to provide Jean Carlo with the bedroom of his dreams that would also stimulate his senses. On his wish day, he was the guest of honor at a party with his loved ones. When his room was unveiled, Jean Carlo was delighted to see new furniture and comfy bedding, trendy curtains, plenty of accessories and a new big screen television. His room was also filled with lots of sensory gadgets to help him with his daily therapy. Jean Carlo loves his new room. It gives him lots of enjoyment and keeps him entertained. Even better, his new bedroom will help to greatly improve his motor functions and communication skills. Thank you for making Jean Carlo's wish come true!
